RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the Restriction Requirement dated June 16, 2005, Applicant hereby provisionally elects to prosecute the Group V claims, namely Claims 118 to 132. The Restriction Requirement is, however, traversed.

Certificate of Transmission

I hereby certify that this correspondence is being facsimile transmitted to the Patent and Trademark Office on:

Traversal is on the ground that there would not be undue burden in examining five groups of claims in a single application. In particular, MPEP § 808 makes clear that in order to require restriction between independent or distinct inventions, reasons for insisting upon a restriction requirement, such as undue burden, must also be shown. In the present instance, it is not believed that there would be an undue burden in examining the claims of Groups I to V in a single application, since the five groups of claims are not so different as would require a burden on the Examiner that is significantly beyond that of the normal burdens of examination.

It is particularly requested to withdraw restriction between Groups IV and V. Group IV (Claims 96 to 104 and 112 to 114) is classified under 709/229, which is an indented subclass under 709/227 of the elected Group V. This classification underscores the relatedness of the technology, and emphasizes that there would not be undue burden in examining both of Groups IV and V.

Accordingly, reconsideration and withdrawal of the Restriction Requirement are respectfully requested.
